IDENTIFIERS ACT Assessment; Iowa Tests of Basic Skills; National Assessment of Educational Progress; *Oklahoma

ABSTRACT

This report contains state and school district student testing results for the Oklahoma Testing Program for the 1998-99 school year. Several benchmarks are reported, including the Iowa Tests of Basic Skills (ITBS), Oklahoma Core Curriculum Tests (OCCT), and American College Test Assessment (ACT) results. The National Assessment of Educational Progress results released in 1999 are included on the state summary page. The results are presented in a report card format, using graphs to provide a clear and understandable picture of each district's performance. The ITBS was given to all public school students in Oklahoma in grades 3 and 7. The OCCT are designed to measure student skill performance on the academic skills of the state's core curriculum. The OCCT were given to students in grades 5, 8, and 11 in numerous subject areas. These benchmarks provide information on how well students are meeting the academic standards established by the Oklahoma State Board of Education. The school district report cards, which contain performance graphs, are listed alphabetically, with each of the 547 school districts alphabetized within the 77 counties. (SLD)

This publication, printed by the State Department of Education Printing Services, is issued by the Oklahoma State Department of Education as authorized by 70 O.S. § 3-104. One hundred copies have been prepared at a cost of \$8.99 per copy. Copies have been deposited with the Publications Clearinghouse of the Oklahoma Department of Libraries. AUGUST 1999

Sandy Garrett
State Superintendent of Public Instruction
Oklahoma State Department of Education

August 24, 1999

To the Citizens of Oklahoma:

We are pleased to report state and school district student testing results from the Oklahoma School Testing Program for the 1998-1999 school year. Several benchmarks are reported including the *Iowa Tests of Basic Skills (ITBS)*, the *Oklahoma Core Curriculum Tests (OCCCT)*, and the *American College Test Assessment (ACT)*. The *National Assessment of Educational Progress (NAEP)* results released this past spring are included on the state summary page. The results are presented in a "report card" format, using graphs to provide a clear and understandable picture of each district's performance.

The *ITBS* provides useful information on how Oklahoma students are learning compared to students across the nation. The *ITBS*, which covers a wide range of subjects, was given to all public school students throughout the state in Grades 3 and 7. Results for the *ITBS* are presented for both the 1997-98 school year and the 1998-99 school year as the composite score for each grade level tested.

The *OCCCT* are designed to directly measure student skill performance on the *Priority Academic Student Skills (PASS)*, Oklahoma's core curriculum. The *OCCCT* were given to students in Grades 5, 8, and 11 in numerous subject areas and are presented for each grade and subject area based on the percentage of students meeting the satisfactory standard.

The *ACT* is a national exam used by many colleges and universities as part of the criteria for admission and class placement. The average *ACT* score of the senior class of 1999 is given for each school district. The *ACT* score range is 1 to 36, and the national average is 21.0.

The *NAEP* is a Congressionally mandated program that assesses the knowledge and skills of the nation's youth utilizing a representative sample of 4th and 8th grade students. The results represent how Oklahoma students scored in comparison to the nation in reading.

These benchmarks provide information on how well students are meeting the academic standards established by the Oklahoma State Board of Education. I appreciate your attention to this report. The School District Report Card provides valuable information on how well Oklahoma students are learning in regard to both national and state standards.

Sincerely,

Sandy Garrett
State Superintendent

PREFACE

The *Oklahoma School District Report Card* presents three **benchmarks** for each district: the *American College Test Assessment (ACT)*, the *Iowa Tests of Basic Skills (ITBS)*, and the *Oklahoma Core Curriculum Tests (OCCT)*. These benchmarks are presented for each school district testing a minimum of six students. Districts testing less than six students are not presented as a measure of confidentiality to the students.

The *ACT* is a national exam used by many colleges and universities as part of the criteria for admission. The average *ACT* score of the senior class of 1999 is given for each school district. The *ACT* score range is 1 to 36, and the national average is 21. Nearly 70 percent of high school students in Oklahoma took the *ACT*.

The *ITBS* is an achievement test that measures what students have learned in reading, language, mathematics, science, social studies, and sources of information. The *ITBS* were given to all students in Grades 3 and 7. The graph represents how Oklahoma students' achievement levels compare to the nation. The national average is at the 50th percentile. Many of our school districts perform well above the national average, as we do statewide.

The *OCCT* is custom designed to measure Oklahoma's core curriculum, the *Priority Academic Student Skills (PASS)*. The *OCCT* were given to all students in Grades 5, 8, and 11 to determine whether or not they have attained expected competencies for grades five, eight, and twelve. These graphs display the number of students who performed satisfactorily on each of the content areas assessed. Both Oklahoma's core curriculum and the test which measure performance on the core curriculum were developed to meet the requirements of state law.

The number of low-performing and high challenge (LP/HC) schools in a district also appears on each report card page. A school is identified as LP/HC if the student average score falls at or below a state percentile rank of 25, and at or below a national percentile rank of 49. If a district tested fewer than six students on the *ITBS*, an N/A has been placed where that information would appear.

The Student Assessment, Research and Planning office has provided this information to be used as a guide to interpreting the results found for each school district. We hope you find this information useful as leaders, teachers, and parents. Please feel free to call our office at (405) 521-3341 for further information.

Katie Dunlap, Assistant State Superintendent of School Improvement
Annette Lopp, Team Leader of Student Assessment, Research and Planning
Barbara Howell, Director, Research and Evaluation
